**Youth, Adult and Aged**  
Three generations have tested Peruna and pronounced it a reliable family tonic. It's useful because it has met the demands of the youth for a strength builder, the adult for conserving strength, and the aged for a healthful invigoration. It allays inflammation of the mucous membranes, dispels the inflammation we call catarrh, and aids digestion. It helps rid the system of colds and coughs, and builds up the strength to resist grip, as well as helping remarkably in convalescence.  
**Nearly Fifty Years**  
have passed since Peruna was introduced to the public. The original formula has been bettered somewhat as experience has shown the way, but it remains the same remedy that has accomplished so much for the health of the people.  
It may be obtained in tablet form or in liquid—both made after the same formula, the tablets omitting the solvent, and is ready to do for you what it did for your father and his father.
